**PRODUCT NAME
24" Tank Light - Explosion Proof**

SPECIFICATIONS

400 Watt Metal Halide * Rated Class 1 - Division 1, Grp: CD
Temp Code T3 * 120 Volt-60hz

UL CERTIFIED PORTABLE LIGHTING

Applications: Industrial Coating * Water & Sandblasting * Confined Space Entry
Tank & Vessel * General Purpose Explosion Proof and Hazardous Location Work Areas.

Fits through a 26" Tank or Vessel Manhole Entry. Power Cord Length: 250 feet

20,000 SQ.FOOT ILLUMINATION - 60 FOOT PROJECTION

SCOPE OF DESIGN: 400 watt Metal Halide EXPLOSION PROOF floodlight designed specifically for Division 1 oil storage tanks and process vessels. The fixture includes a plexiglass shield protecting the fixture globe from sand blast particles and paint residue. A protective aluminum guard attached in front of the plexiglass shield protects fixture globe from falling obstacles. Fixture comes with a 250ft power cord with an EXP-PROOF plug, rated 125v, 15amps, Nema 5-15P UL listed. Floodlight Assembly mounts on an aluminum two wheel cart. When fixture is detached the cart is sized to fit through an 18" or 26" Manhole entry. Fixture brackets come in both 18" and 24" sizes. This Floodlight will illuminate over 20,000 sq.ft. and project light 60 feet from source.
